First District Health Unit
(701) 837-5127

A second case of COVID-19 has been identified in Ward County. Currently an epidemiologist from the North Dakota Department of Health is interviewing the individual in order to gather further information. You will be contacted by the North Dakota Department of Health or First District Health Unit if you are impacted by this case. Everyone should continue to practice good hygiene and social distancing. More information will be shared as it becomes available.
